## Summary

I am a software developer with a large experience in very diverse fields. I have worked as a backend developer, have written desktop applications, simulation software as well as network servers.

I have had the chance to work with low-level object-oriented programming such as C++ which I have used professionally for more than ten years, and also with very high-level functional programming languages such as Haskell. These different approaches give me a good comprehension of the mechanisms at work in software development, always driven by the goal of developing correct, safe, and robust software.

## Skills

<b>Main skills</b>	Architecture and software design Functional and object oriented programming Networking / Linux systems administration Geographic Information Systems Geometry and 3D rendering
<b>Programming</b>	Haskell, Rust, Elm, C/C++, Python, Bash
<b>Development tools</b>	Nix, Make, Git, Jenkins, Ansible, Docker
<b>Scientific tools</b>	Matlab, Octave, gnuplot
<b>Operating systems</b>	Windows, Linux (NixOS, ArchLinux, Ubuntu, CentOS, Debian)
<b>Languages</b>	French: mother tongue, English: fluent, Spanish: beginner

## Experience

### Tiko

Zürich, Switzerland / Remote

BACKEND DEVELOPER

Since 01/2024

- Interface between IoT devices and backend services
- Technical environment: Linux, Haskell, nix, K8s, PostgreSQL, MySQL, Redis, Kafka, MQTT

### Secucloud

Hamburg, Germany / Remote

CLOUD SOFTWARE DEVELOPER

11/2020 - 11/2023

- Develop cloud network security software
- Technical environment: Linux, Haskell, JavaScript, nix, MySQL, Ansible, Redis, Clickhouse

### Epitech

Rennes, France

FUNCTIONAL PROGRAMMING TEACHER

09/2021 - 06/2023 (part time)

- Supported the students with their Haskell projects (Arithmetic expression evaluator, List interpreter, image compression algorithm ...)
- Technical environment: Linux, Haskell, nix

### Scalian

Rennes, France

SOFTWARE DEVELOPER FOR A SUBCONTRACTOR COMPANY

04/2007 - 11/2020

- Developed simulation software in the department Simulation, HPC and Virtual Reality
- Architecture and technical lead
- Technical documentation writing
- Clients: french MoD, ONERA, CEA, CNES, IRSN
- Technical environment: Windows/Linux, C++, Python, Matlab, Qt, openscenegraph, gdal

### LaBRI Analysis and indexing video team (University lab)

Bordeaux, France

RESEARCH ENGINEER

07/2006 - 08/2006

- Prepared the video indexing contests TRECVID and ARGOS
- System administration
- Technical environment: Linux, C/C++, XML, Perl, Bash

## INRIA IPARLA team (French IT lab)

*Bordeaux, France*

### RESEARCH ENGINEER

*09/2004 – 04/2006*

- Visualization of city models on mobile devices through non-photorealistic rendering
- Wrote and presented a scientific paper to the Web3D 2006 conference in Washington
- Technical environment: Linux, Windows, Windows Mobile, C/C++, Bash, Perl, VRML97, X3D

## Keyghost

*Christchurch, New-Zealand*

### SOFTWARE DEVELOPER

*04/2003 - 12/2003*

- Developed security software
- Technical environment: Windows, Delphi, C/C++, Octave

## Visualpix

*Bordeaux, France*

### INTERNSHIP FOLLOWED BY A SOFTWARE ENGINEER CONTRACT

*04/2002 - 12/2002*

- Improved a video compression codec
- Technical environment: Linux, C

## Glisshouse

*Marseille, France*

### BACKEND DEVELOPER, SYSTEM ADMINISTRATOR

*07/2000 - 03/2001*

- Web: Maintained an online shop, developed a CMS
- System administration: Installed, setup and maintained the LAN (router, DNS, firewall, proxy, backup management, file server, print server)
- Technical environment: Linux, Php, MySQL, Apache, Samba, cron

## Education

---

2001 - 2002	<b>DESS Multimedia and Information Technology,</b> image synthesis and analysis, 3D geometry and rendering, sound, video	<i>Bordeaux university</i>
1999 - 2000	<b>Master in computer science,</b> image synthesis and analysis	<i>Poitiers university</i>
1998 - 1999	<b>B.S. in computer science</b>	<i>Limoges university</i>
1996 - 1997	<b>DEUG computer science and mathematics</b>	<i>Limoges university</i>
1995 - 1996	<b>Baccalauréat Science</b>	<i>Lycée Jean Giraudoux, Châteauroux</i>

## Extracurricular Activity

---

<b>Sports</b>	Rock climbing, bike commuting, surf, trekking
<b>Culture</b>	Literature (classical, travel, adventure), cinema, attending rock concerts, guitar playing
<b>Community commitments</b>	Member of the direction comity of the rock climbing club of Rennes (2012 to 2016) Volunteered at concert venues of Rennes: Antipode (2011 to 2015), le Jardin Moderne (2009 to 2010) Volunteered to the music festivals Epipapu (2009, 2010) and la Route du Rock (2008 - 2018)
<b>Travel</b>	New-Zealand, Australia, USA, Canada, Malaysia, Bali, Bolivia, Iceland, Norway, Scotland, Faroe Islands
